Luxembourg

CHARACTER OF THE REGION

- located in the northwestern part of Luxembourg
- well known for its landscape of rolling hills and valleys, meadows and forests

Part of this region is the Upper Sûre Nature Park with its lake that serves as a national drinking water reservoir.

It is one of the most important regions in Luxembourg from the point of view of nature conservation and cultural heritage.

OBJECTIVES OF THE LOCAL DEVELOPMENT STRATEGIE

"Life region - quality region Redange-Wiltz" with 3 areas of development:

Training:

Decentralized training offers, a rural academy considered as a regional learning platform and as a regional trend-setter

Participation:

Promoting the participative attitude within the municipalities (associations, citizens in general, young people in particular)

Integration:

Foreigners, newcomers, marginal social groups, elderly people
→ participate and be involved in social life

MAJOR PROJECTS

- Business cluster in the area of ecological house building and renovation combined to alternative energies
- Forestry "handling license"
- Rural children museum
- Regional development for young people
- Assisted living at home
- Regional integration pact
- Women business fair
- Regional money
- Meditation path

IDEAS FOR TRANSNATIONAL COOPERATION

Current cooperation projects with european partner LAGs:

- Rural social-cultural tourism "CULTrips"
- Youth & Environment "The planet said to me..."
- Eco-building "Pedag'EC"
